

CHANINDU IMANJITH

SOFTWARE ENGINEERING UNDERGRADUATE | DEVOPS | CLOUD | AI PLATFORM ENGINEERING | OPEN-SOURCE CONTRIBUTOR

Colombo, Sri Lanka | [+94 70 358 7028](tel:+94703587028) | chanindu.imanjith@gmail.com | [LinkedIn](#) | [GitHub](#) | [Medium](#) | [Portfolio](#)

SUMMARY

Software Engineering undergraduate at the University of Kelaniya and Software Engineering graduate from IJSE, with hands-on experience in DevOps, cloud engineering, software development, and AI platform technologies. Skilled in AWS, Kubernetes, Docker, Terraform, CI/CD, Spring Boot, React/TypeScript, and Linux. Active open-source contributor to WSO2 and OpenChoreo, with a strong interest in building scalable, cloud-native, and AI-powered systems.

TECHNICAL SKILLS

Cloud & DevOps: AWS (EC2, EKS, VPC, ELB, IAM), Azure, GCP, Docker, Kubernetes, GitHub Actions, Terraform, NGINX, Prometheus, Grafana

Operating Systems: UNIX/Linux, Fedora, Ubuntu

Programming Languages: Java, Python, JavaScript, TypeScript, C, PHP

Frontend: React, JavaScript, TypeScript, HTML5, CSS, Tailwind CSS, Redux

Backend: Spring Boot, Express.js, Node.js, Java, PHP

Databases: PostgreSQL, MySQL, MongoDB

CI/CD & Automation: GitHub Actions, Jenkins, CI/CD Pipelines, Automated Testing, Docker Multi-Stage Builds

Version Control: Git, GitHub

Testing & Build: Maven, Jest, ESLint, Unit Testing

AI & Platform Engineering: Spring AI, RAG, Embeddings, Vector Databases, OpenAI API

EDUCATION

BSc (Hons) in Software Engineering

University of Kelaniya, Sri Lanka | Mar 2025 – Present

CGPA: 3.82 / 4.00

Diploma in Comprehensive Master Java Developer

Institute of Software Engineering (IJSE), Sri Lanka | Dec 2024 – Nov 2025

Focus: Java, OOP, DSA, MySQL/JDBC, Hibernate, Spring Boot, REST/Web Services, React, Design Patterns, Software Architecture & Deployment

OPEN-SOURCE CONTRIBUTIONS

Open-Source Contributor — WSO2 & OpenChoreo | 2026 – Present

Active contributor with multiple merged upstream pull requests across WSO2 and OpenChoreo, backend bug fixes, unit testing, connector documentation, and enterprise product documentation.

Selected merged contributions include:

- OpenChoreo Backstage Plugins — [PR #749](#): Resolved a TypeScript backend status-derivation defect that caused deployment states to be incorrectly reported as failed during namespace provisioning; added unit test coverage to prevent regression.
- WSO2 Integrator: MI Docs — [PR #2336](#): Ported Amazon SQS custom endpoint and Amazon S3 forcePathStyle configuration documentation to the main branch.
- WSO2 Integrator: MI Docs — [PR #2335](#): Enhanced Amazon SQS Connector 4.5.0 documentation with custom endpoint configuration guidance.
- WSO2 Identity Server Docs — [PR #6202](#): Refined Identity Server self-service documentation to better align with the intended product experience.

PROJECTS

Cloud Native DevOps Platform

Individual | 2026 | [GitHub Repo](#)

Designed and deployed a production-oriented full-stack application on AWS using Kubernetes and Infrastructure as Code. Implemented automated CI/CD, GitOps-based deployment, monitoring, autoscaling, and cloud cost optimization.

- Keywords: Cloud Native, DevOps, CI/CD, Infrastructure as Code, GitOps, Observability
- Technologies: AWS EKS, EC2, Terraform, Kubernetes, Docker, GitHub Actions, Argo CD, Prometheus, Grafana

Talynza AI — AI-Native Recruitment Platform

Individual | In Progress | 2026 – Present | [GitHub Repo](#)

Architecting and developing an AI-native multi-tenant recruitment SaaS using microservices and event-driven architecture, with explainable resume analysis, semantic job matching, tenant isolation, and cloud-ready deployment design.

- Keywords: AI Platform Engineering, Microservices, RAG, Multi-Tenancy, Event-Driven Architecture
- Technologies: Spring Boot, Spring AI, PostgreSQL, pgvector, Redis, Docker, Kubernetes, Terraform, AWS

Research Project Tracker

Individual | 2026 | [GitHub Repo](#)

Developed a full-stack research project management system with secure JWT authentication, role-based access control, CRUD workflows, and REST API integration between a Spring Boot backend and React frontend.

- Keywords: Full-Stack Development, Authentication, RBAC, REST APIs, CRUD
- Technologies: Spring Boot, Spring Security, Spring Data JPA, React, TypeScript, MySQL, JWT

Vehicle Spare Parts Management System

Individual | 2026 | [GitHub Repo](#)

Built a full-stack spare parts management system with authentication, product search, cart/checkout, order management, inventory administration, and PayHere payment integration.

- Keywords: Full-Stack, eCommerce, Authentication, Inventory, Payments
- Technologies: PHP, MySQL, JavaScript, HTML5, CSS3, GitHub Actions

Multi-Stage Docker Calculator

Individual | 2026 | [GitHub Repo](#)

Built a JavaScript calculator with automated testing, multi-stage Docker builds, NGINX deployment, and GitHub Actions CI/CD.

- Keywords: DevOps, CI/CD, Docker, Testing
- Technologies: JavaScript, Jest, ESLint, Docker, NGINX, GitHub Actions

CERTIFICATIONS

H2O Gen AI Ecosystem Overview – Level 1 & Level 2 — H2O.ai University | 2026

AWS Cloud Practitioner Essentials — Amazon Web Services (AWS) | 2026

Linux Essentials — Cisco | 2026

Java Certification — HackerRank | 2025

VOLUNTEERING

Executive Committee Member – Software Engineering Students' Association | Jul 2025 – Jun 2026

Member – Cloud Club, University of Kelaniya | May 2025 – Apr 2026
